

300 BLACKOUT

Increased power with minimal recoil

CHARACTERISTICS

Variant	125gr HP Matchking	125gr PP SN (Woodleigh)	144gr AM FMJ
Length of complete round	56.1 mm (Nominal)	51.8 mm (Nominal)	54.4 mm (Nominal)
Cartridge mass	14.9 g	15.2 g	16.1 g
Primer	Small Rifle Primer (Boxer type)		
Muzzle velocity	2120 ft/s	2190 ft/s	2010 ft/s
Propellant	Single base rifle propellant		
Projectile mass	125 gr	125 gr	144 gr

300 BLACKOUT

Increased power with minimal recoil

IN THE BATTLE SINCE 1888

Australian Munitions' 300 Blackout ammunition combines the versatility and low recoil of 5.56 mm ammunition with the stopping power of 7.62 mm ammunition. In today's world of critical mission outcomes, our 300 Blackout ammunition is available in multiple projectile configurations to suit the differing operational requirements of defence and law enforcement agencies the world over.

Australian Munitions' 300 Blackout ammunition is manufactured at our Benalla munitions facility and its performance is optimised for use with any AR-15 style weapons system.

SPECIAL FEATURES

Australian Munitions' 300 Blackout ammunition employs a specially designed single base propellant. The propellant is primarily nitrocellulose with added stabiliser and ballistic moderants. The propellant has extremely clean burning characteristics and is an excellent replacement for propellants that exhibit weapon fouling.

FUNCTION

Our 300 Blackout ammunition offers superior reliability and performance in AR-15 style weapons systems, maintaining muzzle velocity and chamber pressure at optimal levels.

PACKAGING

Australian Munitions' 300 Blackout ammunition can be supplied in the following standard packaging configuration:

- M2A1 containing 900 cartridges in Plastic Film Packs (18 Plastic Film Packs/ M2A1, 50 Rounds/Plastic Film Pack)

These configurations are packed in standard military packaging, details of which can be supplied upon request. Our 300 Blackout ammunition will be shipped in packages conforming to UN recommendations for packaging of dangerous goods. The packages are classified as Hazard Division 1.4S, UN Number 0012. Proper shipping name - Cartridges, Small Arms.

The Thales Australia Centre, WTC Northbank Wharf, Concourse Level,
Siddley Street, Melbourne, Victoria 3005, Australia.
